

Neurozone® Corporate Analytic Heat Maps

Discover the architecture of resilience and high performance behaviours

Target audience

Heat Maps provide leadership with a clear picture of the associations between behaviors and performance outcomes in the organization (or selected teams). Leaders are empowered to make informed decisions about program implementation to build resilience and high performance capacity.

Product features

- ✓ 20-minute online assessment
- ✓ Customized to the needs of organizational leadership
- ✓ Reports on a company-wide or sub-unit/team level
- ✓ Includes recommendations for individual/team coaching and awareness programs

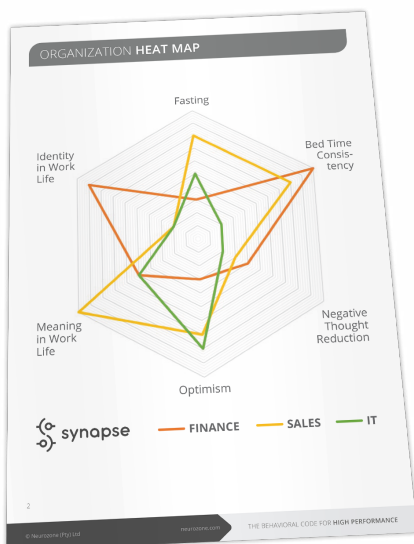

Key benefits

- + A clear map of the collective behaviors, emotional/cognitive states of the organization and how these affect performance outcomes
- + Informs leaders on the best possible interventions to be considered to affect high performance
- + Analytic report focuses on the most critical factors that will drive performance
- + Simplified into practical behavioural components
- + The shortest route to results, from under-performance to high performance

Delivery modes

- Online
- Customized for leadership
- Neurozone® Consulting recommended to optimize the benefits
